This two day course is designed to prepare perioperative nurses to take the CNOR exam and to demonstrate clinical competence and knowledge of practice standards.

**COURSE BENEFITS:**
You will learn strategies to help you feel less intimidated. Some simple tricks will help you identify the most likely answer to multiple choice questions even before you consider the content. You will leave with a personal study plan and take six practice tests over the two day course that will help boost your confidence.

Sterilization and maintaining sterility is fundamental to perioperative nursing practice. You will review all aspects of sterilization, product selection, skin preparation and strategies to reduce surgical site infections. You will be able to identify the perioperative nurse’s role in safe administration of anesthesia.

You will know the common uses and what considerations you should be thinking about for different administration techniques and anesthetic agents.

You will identify the nurse’s role in caring for patients with surgical emergencies and perioperative complications. When the patient is the most vulnerable, the perioperative nurse must be the most knowledgeable and decisive. This review will help you be the best advocate you can be when your patient needs you the most.

You will identify the professional nurse’s role during surgery. Perioperative nursing is a profession that requires skill, science and planning. We will review how those attributes will benefit the surgical patient and help the nursing health care professional to provide best outcomes for his or her patients.

3:30-5:30 Professional Responsibility
5:30 Course Evaluation and CE Certificates

This is an interactive course. You will complete six modules and take seven practice tests over the two days. After class, you will receive 16.0 contact hours and access to a recording of class for six weeks.

All required handouts will be provided during class. It is not required for class but I recommend access to a good textbook and the AORN Recommended Standards of practice aid your study.

You will learn during class how to focus your study and improve your areas of opportunity. I recommend you schedule your exam the month following The CNOR Prep and Review Course.

*Times are estimated.

Free parking is available in the front of the building and the PS-2 Garage.

Enter the main entrance of the hospital, turn right to the information desk. Directly across from it are stairs down to the cafeteria. Go down and turn left. Walk up a small incline. The room is the 2nd door on the right.

*If entering from PS-2 turn left and walk toward D Tower until you reach the information desk. Directly across from it are stairs down to the cafeteria. Go down and turn left. Walk up a small incline. The room is the 2nd door on the right.
