

CNOR EXAM PREP AND REVIEW WORKSHOP

This two day course is designed to prepare perioperative nurses to take the CNOR exam and to demonstrate clinical competence and knowledge of practice standards.

COURSE BENEFITS:

You will learn strategies to help you feel less intimidated. Some simple tricks will help you identify the most likely answer to multiple choice questions even before you consider the content. You will leave with a personal study plan and take six practice tests over the two day course that will help boost your confidence.

Sterilization and maintaining sterility is fundamental to perioperative nursing practice. You will review all aspects of sterilization, product selection, skin preparation and strategies to reduce surgical site infections.

You will be able to identify the perioperative nurse's role in safe administration of anesthesia. You will know the common uses and what considerations you should be thinking about for different administration techniques and anesthetic agents.

You will identify the nurse's role in caring for patients with surgical emergencies and perioperative complications. When the patient is the most vulnerable, the perioperative nurse must be the most knowledgeable and decisive. This review will help you be the best advocate you can be when your patient needs you the most. You will identify the professional nurse's role during surgery. Perioperative nursing is a profession that requires skill, science and planning. We will review how those attributes will benefit the surgical patient and help the nursing health care professional to provide best outcomes for his or her patients.

*Times are estimated.

Parking is available in Lot PG1. The cost is \$6/day. Duke Medicine Pavillion is directly across the street. Enter and take the elevators immediately to the left. Go to the second floor. The classroom 2W93 will be on the right as you walk down the hallway.

This is an interactive course. You will complete six modules and take seven practice tests over the two days. After class, you will receive 16.0 contact hours and access to a recording of class for six weeks.

All required hand outs will be provided during class. It is not required for class but I recommend access to a good text book and the AORN Recommended Standards of practice aid your study.

You will learn during class how to focus your study and improve your areas of opportunity. I recommend you schedule your exam the month following The CNOR Prep and Review Course.
